Returns greater than one year are annualized.

Performance data quoted represent past performance; past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate, so an investor’s shares, when redeemed, may be worth more or less than their original cost. Current performance of the Fund may be lower or higher than the performance quoted. The investment records provided are illustrative only and should not be taken as an indication of BII’s expected or actual performance or future rates of return. There can be no guarantee that BII will achieve comparable returns to those illustrated on this page, or at all. Potential investors should place no reliance on this illustrative information. Please refer to the Fund’s prospectus and sub-fund supplement and to the key information document prepared (if applicable) in respect of it before making any final investment decisions. This is a marketing communication. For NMPI exempted clients.

The functional currency of BII is USD (\$). Note that where the functional currency of a fund differs from USD, an investor’s return will be subject to exchange rate fluctuation risk.

Total Returns are calculated as the percentage change in the NAV per share, from the beginning of the applicable period, plus the amount of any net distribution per share declared in the period. Total return is calculated after the subtraction of expenses, including management and trail fees, where applicable. All returns shown are net of all BII expenses, including general and administrative expenses, transaction-related expenses, management fees, incentive fees and share-class-specific fees.

BII

ENDNOTES

- ¹ BII is a sub-fund of the BOWSAF multi-strategy umbrella fund. Each sub-fund under the BOWSAF umbrella constitutes a distinct pool of assets and liabilities, managed in the exclusive interest of the investors having invested in such sub-fund. The BOWSAF multi-strategy umbrella fund was effective as of April 2, 2024.
- ² Total Asset Value is measured as the value of BII's interest in Brookfield Infrastructure Income Fund FCP-RAIF – BII FCP - I, a sub-fund of Brookfield Infrastructure Income Fund FCP-RAIF, a Luxembourg mutual investment fund (fonds commun de placement) organized as a multi compartment reserved alternative investment fund (*fonds d'investissement alternatif réservé*) (the "Master Fund") and is the master fund for the sub-fund, as well as cash and other working capital assets. The functional currency of BII is USD (\$).
- ³ Net Asset Value or "NAV" is calculated by adding the Total Asset Value (as defined in Footnote 2 above), less any liabilities including Fund-level debt (excluding portfolio investment debt), accrued fees and expenses of the Fund or distributions to be paid in connection with permitted redemptions. For information on how BII calculates NAV, see the "Calculation of Net Asset Value" section of the BII prospectus.
- ⁴ Excludes the public securities otherwise included in the Economic Exposure of the Fund. Investments represent the underlying assets responsible for the Economic Exposure of the Fund. BII intends to obtain this economic exposure by investing in the Master Fund. The Master Fund will initially invest a majority of its assets (and subject always to the Master Fund's investment restrictions and applicable law and regulation) into interests in Brookfield Infrastructure Income Fund Inc. (the "Underlying Fund"). Figures shown are calculated by reference to the holdings of the Underlying Fund as of the stated month end. The Underlying Fund may hold these investments indirectly via underlying partnerships, holding companies and/or other special-purpose vehicles organized for this purpose (the "Portfolio Company Structure"). Hereinafter, the foregoing is referred to as the "Economic Exposure of the Fund."
- ⁵ Asset Allocation reflects the Economic Exposure of the Fund and is measured as the gross asset value of each asset category (private infrastructure equity investments, private infrastructure debt investments and public securities) against the total asset value of private infrastructure equity investments, private infrastructure debt investments and public securities. Private infrastructure equity investments include preferred equity investments. Public Securities under Asset Allocation refers to the Fund's allocation to public securities, term deposits and cash equivalent holdings. Public Securities is net of repurchase requests received and valued by the Fund as of the applicable valuation date. Committed capital reflects the expected capital deployment based on private investments that have been signed or are in the closing stages. Sector and geography are measured as the gross asset value of each private asset category (private infrastructure equity investments and private infrastructure debt investments) against the total gross asset value of private infrastructure equity investments and private infrastructure debt investments. Asset values include, where applicable, mark-to-market gains and losses from the Fund's foreign currency hedging program. Totals may not sum due to rounding.
- ⁶ NAV per share is calculated by taking the Fund's Net Asset Value divided by the total number of shares outstanding at the time the determination is made. For information on how BII calculates NAV per share, see the Calculation of Net Asset Value" section of the BII prospectus. The denominators presented are based on the number of shares in issue as of the date of this document and excludes any redemptions as of month end.
- ⁷ Monthly Net Distribution: Reflects current month's distribution per share (as declared, regardless of whether or not paid) for Class C and Class D. Class D will be lower to reflect the Trail Fee. Future distributions are not guaranteed and may be sourced from sources other than cash flows from operations.
- ⁸ Distribution Rate (annualized): Reflects current month's distribution per share annualized and divided by the prior month's NAV per share for Class C and Class D. NAV-based calculations involve significant professional judgment. Class D will be lower to reflect the Trail Fee. For further information, please refer to the "Calculation of Net Asset Value" section of the prospectus, which describes the valuation process and the independent third parties who assist BII.
- ⁹ Total Returns: The returns have been prepared using unaudited data and valuations of the underlying investments in the BII portfolio, which are estimates of fair value and form the basis for BII's NAV. Valuations based upon unaudited reports from the underlying investments may be subject to later adjustments, may not correspond to realized value and may not accurately reflect the price at which assets could be liquidated. The most recent quarter-end refers to the three months ended March 31, 2026.
- ¹⁰ Represents assets under management ("AUM") attributable to Brookfield Infrastructure and Renewable Power lines of business as of December 31, 2025. AUM refers to the total fair value of assets managed by Brookfield Infrastructure AUM includes \$5B of AUM attributable to Brookfield Public Securities Group LLC ("PSG"). Operating Employees as of December 31, 2025. Operating Employees refers to Brookfield, its publicly traded affiliates, Brookfield Infrastructure Partners L.P. and Brookfield Renewable Partners L.P., and related operating businesses and portfolio companies. Personnel figures are inclusive of Oaktree employees that will become Brookfield employees following the completion of the Oaktree acquisition, which is expected to close during the first quarter of 2026. Number of countries represents Brookfield Corporation and its affiliates.
- ¹¹ Investments represent the Private Infrastructure Equity assets responsible for the economic exposure of the Fund.
- ¹² BII is structured as a feeder fund into a master fund managed by Brookfield (which is organised as a Luxembourg FCP-RAIF) (the "Master Fund"). Initially, the Master Fund will invest a majority of its assets in an underlying fund managed by Brookfield. **Open-ended does not mean instantly liquid. These funds are designed for long-term investors (3–5+ years) and may limit redemptions in stressed markets.**
- ¹³ Subject to such higher initial subscription amounts as required for a Shareholder's eligibility under applicable law.
- ¹⁴ The Fund intends, but is not obligated, to conduct quarterly redemptions and it may suspend quarterly redemptions in its sole and absolute discretion at any time. The Fund may, in the sole discretion of its Board Directors or its delegate, waive or reduce the redemption fee.
- ¹⁵ The Management Fee is payable monthly in arrears as of the last business day of each month at a rate equal to 1/12 of 1.25% of the relevant month-end NAV charged at the Master Fund and Underlying Fund, albeit in circumstances that would not result in double-counting of such fees.
- ¹⁶ The existence of an entitlement to a Variable Management Share in the circumstances described in the prospectus may create an incentive for the manager to cause the Master Fund or the Underlying Fund to make investments that are riskier or more speculative than it would otherwise make in the absence of such performance-based compensation.
- ¹⁷ The Variable Management Share is calculated monthly and payable annually in arrears at the rate equal to 12.5% of the fund income of the Master Fund and Underlying Fund, albeit in circumstances that would not result in double-counting of such fees.
- ¹⁸ Twenty-five thousand Euros (€25,000) (or its U.S. Dollar equivalent).
- ¹⁹ Class B and Class D Shares will be subject to an annual Trail Fee of 0.85% of NAV, calculated monthly (the "Trail Fee"). The Trail Fee will be calculated each month by multiplying the accrued monthly Trail Fee rate (1/12th of 0.85%) by the aggregate NAV of such Class of Shares.

DISCLAIMERS

This is a marketing communication. For eligible investors only. Please refer to the prospectus and sub-fund supplement of Brookfield Oaktree Wealth Solutions Alternative Funds S.A. SICAV-UCI Part II – Brookfield Infrastructure Income Fund ("BII" or the "Fund") (the "Prospectus") and to the key information document prepared in respect of it before making any final investment decisions. All information is as of the stated month end, unless otherwise indicated, and may change materially in the future.

BII

This communication is not intended to and does not constitute an offer or solicitation to sell or a solicitation of an offer to buy any security, product, investment advice or service (nor shall any security, product, investment advice or service be offered or sold) in any jurisdiction in which Brookfield Private Wealth LLC or any other applicable affiliate of Brookfield Asset Management Inc. is not licensed to conduct business, and/or an offer, solicitation, purchase or sale would be unavailable or unlawful. No offer or sale of any security, product or fund may be made except in accordance with the prospectus, prospectus and/or other disclosure document applicable to such security product and/or fund.

SUMMARY OF RISK FACTORS

An investment in shares of BII involves a high degree of risk. An investment in shares of Brookfield Oaktree Wealth Solutions Alternative Funds S.A. SICAV-UCI Part II - Brookfield Infrastructure Income Fund ("BII" or the "Fund") involves a high degree of risk. These shares should only be purchased if you can afford to lose your complete investment. Please read the prospectus and sub-fund supplement of the Fund (the "prospectus") for a description of the material risks associated with an investment in BII. These risks include but are not limited to the following:

- BII has a limited operating history, and its operating history should not be relied upon due to the changes to its business. There is no assurance that BII will be able to successfully achieve its investment objectives.
- BII has only made limited investments to date, and you will not have the opportunity to evaluate its future investments before BII makes them.
- Since there is no public trading market for shares of BII, redemption of shares will likely be the only way to dispose of your shares. BII's share redemption plan will provide investors with the opportunity to request redemption on a quarterly basis, but BII is not obligated to redeem any shares and may choose to redeem only some, or even none, of the shares that have been requested to be redeemed in any particular quarter in its discretion. In addition, redemptions will be subject to available liquidity and other significant restrictions. Further, BII's board of directors may modify, suspend or terminate the share redemption plan if it deems such action to be in our best interest and the best interest of shareholders.
- As a result, the shares should be considered as having only limited liquidity and at times may be illiquid.
- BII cannot guarantee that it will make distributions, and if it does, distributions will nevertheless only be available to shareholders holding shares in certain share classes. There is no assurance that BII will pay distributions in any particular amount, if at all. Any declaration of distributions to shareholders will be made in accordance with applicable law.
- Subscription and redemption price for shares of BII will generally be based on the NAV at close of business on the last business day of the immediately preceding month (subject to material changes as described in the prospectus) and will not be based on any public trading market. While there will be annual appraisals of BII's investments, the appraisal of such investments is inherently subjective, and its NAV may not accurately reflect the actual price at which its assets could be liquidated on any given day.
- BII has no employees and is dependent on the Adviser to conduct its operations. The Adviser will face conflicts of interest as a result of, among other things, the allocation of investment opportunities among BII and other Brookfield funds and accounts, the allocation of time of its investment professionals, and the substantial fees that BII will pay to the Adviser.
- This is a "best efforts" offering. If BII is not able to raise a substantial amount of capital in the near term, its ability to achieve its investment objectives could be adversely affected.
- There are limits on the ownership and transferability of BII's shares.
- BII's operating results will be affected by global and national economic and market conditions generally and by the local economic conditions where its investments are located.
- BII is not managed in reference to any benchmark index.

You should carefully review the "Risk Factors and Other Considerations" section of the prospectus for a discussion of the risks and uncertainties that BII believes are material to its business, operating results, prospects and financial condition. Except as otherwise required by applicable securities laws, BII does not undertake to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

FUTURE PERFORMANCE

Past performance is not indicative of future performance, and the value of investments and the income derived from those investments can fluctuate. Future returns are not guaranteed and a loss of principal may occur.

U.K. FCA WRAPPER

Estimated reading time: 2 min

Due to the potential for losses, the Financial Conduct Authority (FCA) considers this investment to be very complex and high-risk.

What are the key risks?

1. You could lose all the money you invest

- If the business offering this investment fails, there is a high risk that you will lose all your money. Businesses like this often fail, as they usually use risky investment strategies.
- Advertised rates of return aren't guaranteed. This is not a savings account. If the issuer doesn't pay you back as agreed, you could earn less money than expected or nothing at all. A higher advertised rate of return means a higher risk of losing your money. If it looks too good to be true, it probably is.
- These investments may very occasionally be held in an Innovative Finance ISA (IFISA). In such circumstances, while any potential gains from your investment will be tax-free, you can still lose all your money. An IFISA does not reduce the risk of the investment or protect you from losses.

2. You are unlikely to be protected if something goes wrong

- The Financial Services Compensation Scheme (FSCS), in relation to claims against failed regulated firms, does not cover investments in unregulated collective investment schemes. You may be able to claim if you received regulated advice to invest in one, and the adviser has since failed. Try the FSCS investment protection checker [here](#).

3. You are unlikely to get your money back quickly

- This type of business could face cash flow problems that delay payments to investors. It could also fail altogether and be unable to repay any of the money owed to you.
- You are unlikely to be able to cash in your investment early by selling your investment. In the rare circumstances where it is possible to sell your investment in a "secondary market", you may not find a buyer at the price you are willing to sell.
- You may have to pay exit fees or additional charges to take any money out of your investment early.

4. This is a complex investment

- This kind of investment has a complex structure based on other risky investments, which makes it difficult for the investor to know where their money is going.
- This makes it difficult to predict how risky the investment is, but it will most likely be high.
- You may wish to get financial advice before deciding to invest.

5. Don't put all your eggs in one basket

- Putting all your money into a single business or type of investment, for example, is risky. Spreading your money across different investments makes you less dependent on any one to do well.
- A good rule of thumb is not to invest more than 10% of your money in [high-risk investments](#).
